PROJECTS

Car Rental App (ENIOUKIO)

Flutter & Firebase

- Developed a cross-platform car rental application with Flutter and Firebase.
- Features: Vehicle browsing, secure authentication, real-time availability updates, payment integration, and notifications.
- Admin panel for vehicle management, booking tracking, and user monitoring.

Quiz App

Flutter

- Created a multi-platform quiz application using Flutter.
- Features: User authentication, customizable categories, time-limited questions, instant feedback, and score tracking.
- Integrated backend for managing data and ensuring scalability.

PROFESSIONAL EXPERIENCE

Intern Flutter Developer

Luminar TechnoHub, Ernakulam | Present

- Contributing to the development of cross-platform mobile applications using Flutter.
- Assisting in the design and implementation of user interfaces and functionalities.
- Collaborating with senior developers to troubleshoot and resolve technical issues.
- Gaining hands-on experience in integrating backend services and APIs.
- Participating in code reviews and adhering to software development best practices.
- Learning and applying industry-standard tools and frameworks to enhance app performance.
- Contributing to project documentation and maintaining effective communication with team members.

Stock Manager

B.MK. Group, Kattapana | Feb 2021 - Dec 2023

- Maintained accurate inventory records for optimal stock levels.
- Coordinated timely reordering with suppliers to prevent stockouts and overstocking.
- Organized warehouse storage for efficient space use and accessibility.
- Conducted quality control inspections and resolved supplier discrepancies.

To-Do App

Flutter

- Designed a productivity app for task management with Flutter.
- Features: Task creation, editing, deletion, categorization, prioritization, reminders, and due dates.
- Achieved data synchronization across devices for seamless task access.

News App

Flutter

- Developed a news application with Flutter for delivering real-time news across multiple categories.
- Features: Personalized feeds, article bookmarking, push notifications, and offline reading.
- Integrated with news APIs and backend systems for user preferences and interaction management.

Amazon Prime Videos Clone

Flutter

- Replicated Amazon Prime Videos features using Flutter.
- Features: Content browsing, personalized recommendations, offline viewing, subscription management, and social sharing.
- Focused on delivering a seamless streaming experience on both iOS and Android platforms.

Technical Supporter

Abasoft Technologies, Ernakulam | Oct 2020 - Jan 2021

- Resolved customer complaints and issues efficiently.
- Escalated complex problems to senior support when required.
- Assisted with account setup, updates, and management.
- Verified and updated customer information.
- Analyzed issues and provided effective solutions.
- Employed critical thinking to troubleshoot and resolve problems.

PROFESSIONAL SKILLS

- Flutter & Dart: Expertise in cross-platform mobile app development.
- UI Design: Strong ability to create intuitive and attractive interfaces.
- API Integration: Proficient in connecting and managing APIs.
- State Management: Skilled in using tools like Provider and Bloc.
- Git: Experienced with version control and collaborative workflows.
- Firebase: Knowledgeable in Firestore, Authentication, and Cloud Functions.
- Problem Solving: Effective at analyzing and resolving complex issues.
- Leadership: Proven ability to lead teams and manage projects.
- Communication: Excellent at conveying technical information clearly.
